Re: Cannonsburg Water District's Unaccounted-For Water Loss Reduction Plan,  
Surcharge and Monitoring  
Case No. 2014-00267

Dear Mr. Clarkson:

In your Surcharge Monthly Activity Reports dated August 10, 2015, you indicated that the replacement meters the Commission authorized Cannonsburg Water District to install as part of its water loss detection plan were still not in working order. With your Report, you provided a letter from C.I. Thornburg that stated the replacement meters had been installed but could not be read by your existing RadioRead handheld units. C.I. Thornburg's letter further stated that after different radios were installed to communicate with the meters, it was determined that two or three of the electronic registers had been damaged since installation, had stopped working, and needed to be replaced.

In your letter dated August 11, 2015, you indicated that the C.I. Thornburg hoped to have the work completed and to start collecting the data from the replacement meters on August 14, 2015. Please advise the Commission in writing by September 1, 2015 if the replacement meters are now operational and if you are able to collect data from them. If not, explain the reason for the delay, describe the additional work still needed to be completed, and provide the anticipated completion date.

If you have any questions about this letter, please contact Staff Attorney John Park, at (502) 782-2589.

Sincerely,

---

Jeff Derouen  
Executive Director
